I am a UI/UX design enthusiast with a basic understanding of code.

Experience

UI & GRAPHIC DESIGNER

KGISL, Coimbatore, Tamilnadu, India
Sep 2018 - Feb 2022

I actively participated in secondary research and planning with the product manager and stakeholders, and I collaborated with developers to effectively work on and create user interfaces for the Airborne Image Processing Software.

I then worked on the Bosch internal ticketing tool UX workflow presentation and the Olive AI voice assistant self-explanatory UX workflow presentation. I also worked as a senior web researcher and graphic design support for the same organization.

FREELANCE VISUAL DESIGNER & EDITOR

Coimbatore, Tamilnadu
Nov 2016 - May 2018

I engaged ethically as a freelance editor and designer, and I researched, designed, and edited mockups and video compositions on UI and graphic content for a variety of customers.
